

## Reflection

### Poster Design

The fourth grade students at Lincoln are creating a poster using Microsoft Word. The topic is a state attraction. In order for the students to be aware of poster design, I created a document to share some tips. When teaching the poster design, I will use these tips and show both good and bad examples in reference to the tips. I took these tips from my EXPLORE site. This would have been a situation that I could have shared my web site with the classroom teacher and students.
